

Ore Valley Action

***Campaigning for a better environment
for the people of Ore Valley***

Mission Statement:

Ore Valley Action will act as an umbrella group campaigning for a better environment in Ore Valley.

The group will seek to encourage the establishment of, provide support to and help to co-ordinate the work of residents' organisations in the Ore Valley with similar aims. Ore Valley Action will be open to individuals living in the Ore Valley and elsewhere who are concerned to improve and protect the environment of the area.

In addition, Ore Valley Action will seek to ensure that residents are properly consulted and that their views are made known in respect of strategies, development, environmental plans and other initiatives affecting Ore Valley.

Ore Valley Action

*Campaigning for a better environment
for the people of Ore Valley*

Aims:

- *To ensure that all residents of the Ore Valley area are properly informed and involved in genuine independent consultation over any strategies, plans, developments and initiatives affecting the Ore Valley*
- *To call for a fundamental review of all Millennium Community developments for the Ore Valley, all land development designations in the Borough Plan and other plans which impact on the environment of the Ore Valley*
- *To campaign to ensure that the vision set out in the Ore Valley Development Framework Plan is not lost by poor quality design and overdevelopment*
- *To take action to seek to preserve the upper ore valley/speckled wood as green space with some community amenity use*
- *To support other groups and residents who are opposing excessive or inappropriate developments*
- *To help to create a community based action plan to bring about improvements to the Ore Valley and to protect open space, green space and habitat as far as possible*
- *To seek support from and work in partnership with other organisations with similar aims*
- *To recognise diversity within the Ore Valley community and to seek to provide a platform for all those in the Valley who have views about its development and its future.*
